Alaskan Dene Treasures

Through Mukurtu, this is a digital archive with online resources that hosts photos, videos, sound files, and an online dictionary. For the dictionary, you must click on the language (Denaakk'e or Menhti) in the Language Tab.

Doyon Language Online (DLO)

The DLO courses have lessons that allow students to listen to vocabulary and phrases, repeat the phrases, and practice writing. There are two courses: Denaakk'e and Benhti. Minors under the age of 13 need to have signed permission slips to join. The app does require a base level of literacy so it's best if students were able to read.

Denaakk'e for students:
