

## GYM FLOOR CARE

### STEP-BY-STEP INSTRUCTIONS

#### PRODUCTS

- Spartan L.O.E. Stripper (Wax stripper)
- Spartan Shinline Floor Prep (Neutralizer)
- Spartan On an' On (Wax Finish)
- Spartan Damp Mop (Daily floor cleaner)

#### STRIPPING

##### REQUIRED TOOLS/PRODUCTS

- Dust mop
- Mop and mop bucket
- Shop Vac
- Power scrubber / buffer
- Heavy buffing pad
- Spartan L.O.E. Stripper

##### PROCEDURES

- 1) Thoroughly sweep floor. Make sure all loose dirt and sand are removed
- 2) Install a new heavy buffing pad on the scrubber or buffing machine
- 3) Mix stripper solution as directed on bottle or bucket, and pour it into scrubber or mop bucket
- 4) Apply stripping solution liberally to the floor. Only apply to an area that can be stripped before the stripping solution dries on the floor
- 5) After applying stripping solution to the floor, let the it set on the floor for 5-10 minutes (make sure it does not dry). If needed, more solution can be added to prevent drying
- 6) Buff area that has had stripping solution applied to it
- 7) Remove solution from stripped area with the scrubber or Shop Vac
- 8) Repeat these steps until the entire floor is stripped
- 9) If the floor has not been stripped regularly or has had multiple layers of wax applied, this procedure may have to be repeated to remove all wax

## NEUTRALIZING

### REQUIRED TOOLS/PRODUCTS

- Mop bucket and mop
- Power scrubber / buffer
- Spartan Shinline Floor Prep (Neutralizer)

### PROCEDURES

- 1) Thoroughly rinse out mop bucket and/or stripping machine with clean water
- 2) Mix neutralizing solution as directed on the container
- 3) Apply neutralizing solution with the power scrubber and extract immediately
- 4) If mop-applying the neutralizing solution – allow to air dry

## RINSING

### REQUIRED TOOLS/PRODUCTS

- Mop bucket and mop
- Power scrubber / buffer
- Light buffing pad

### PROCEDURES

- 1) Thoroughly rinse out mop bucket and/or stripping machine with clean water
- 2) Install a new light buffing pad on the power scrubber / buffing machine
- 3) Fill scrubber or mop bucket with clean water
- 4) Rinse, scrub and extract all at the same time
- 5) If rinsing using a mop and mop bucket, change the water in the mop bucket often
- 6) Rinse entire floor two times

## WAXING

### REQUIRED TOOLS/PRODUCTS

- Mop bucket and mop
- Clean, white, lint-free mop head
- Spartan On an' On (Wax Finish)

### PROCEDURES

- 1) Thoroughly rinse out mop bucket with clean water
- 2) Pour wax directly into mop bucket
- 3) Apply wax very liberally (Do not squeeze wax out of mop)
- 4) Apply wax from side-to-side. Apply with a left – right motion and overlap the last pass with each stroke. Cover an area of 8-10 feet per pass. Continue making passes, up and down the floor until the entire floor is covered in wax.
- 5) Do not touch wet floor until it is completely dry. This usually takes between 30 and 60 minutes
- 6) Apply a second coat in the opposite direction as the first. The second coat will use less wax than the first coat
- 7) Allow wax to dry for several hours (overnight if possible) before using gym.

## PERIODIC CLEANING

### REQUIRED TOOLS/PRODUCTS

- Clean dust mop
- Dry sponge or Brillo Pad
- Power scrubber
- Spartan Damp Mop (Daily floor cleaner)

### PROCEDURES

- 1) Sweep the floor daily with a clean dust mop
- 2) A dry sponge or Brillo Pad will remove shoe scuff marks
- 3) Clean the floor as needed with a power scrubber and a solution of Assurance
- 4) A mop can be used in lieu of a power scrubber
