

Spill Prevention and Response Training

Facility Response Team Topics:

- inspection, operation, and deployment of spill response equipment
- reviewing and updating of the Facility Response Plan, SPCC Plan, and Operations Manual
- spill prevention and safe operating and transfer procedures
- review of reporting and regulatory requirements
- first aid and firefighting/safety considerations
- operating health and safety considerations

NOTES:

WE REVIEWED THE SPCC TOGETHER, AND COVERED FUEL TRANSFER
PROCEDURES AT THE PLANE AND HERE AT THE FACILITY. WE DISCUSSED
DISCHARGE PREVENTION THRU INSPECTION AND OTHER MEASURES, AND WE
COVERED SPILL RESPONSE & NOTIFICATION PROCEDURES.
